

## RED HERRING REVEALS COMPANIES SELECTED FOR THE RED HERRING 100 EUROPE 2007

*Award Recognizes the 100 "Most Promising" Companies  
Driving the Future of Technology*

**CANNES, France, March 20, 2007** – Red Herring today announced that **OneAccess** is a recipient of Red Herring 100 Europe, an award given to the top 100 private technology companies based in the EMEA (Europe, Middle East and Africa) region each year.

"This year's impressive list of winners demonstrates Europe's emergence as a major player in the global technology sector," said Red Herring Editor-in-Chief, Joel Dreyfuss. "The exceptional accomplishments of European technology companies and entrepreneurs are a testament to the rapid advancements being made in building the European innovation ecosystem."

Red Herring's lists of top private companies are an important part of the company's tradition of identifying new and innovative technology companies and entrepreneurs. Companies like Google, eBay and Skype were spotted in their early days by Red Herring editors, and touted as leaders that would change the way we live and work.

Red Herring's editorial staff rigorously evaluated more than 700 private companies through a careful analysis of financial data and subjective criteria, including quality of management, execution of strategy, and dedication to research and development.

To honor the CEOs of Red Herring 100 Europe companies, Red Herring has invited each CEO to present his or her company at its Venture Market Europe (VME) 2007 event. Scheduled for March 25-27, at the Intercontinental Carlton, this intimate, three-day event is themed "The Pursuit of Disruption" and will explore how European firms are leading the charge in many technology sectors, gaining the competitive advantage, and driving entrepreneurial success in ways that create business opportunities for challengers and incumbents alike.

### **About Red Herring**

Red Herring is a global media company which unites the world's best high technology innovators, venture investors and business decision makers in a variety of forums: a leading innovation magazine, an online daily technology news service, technology newsletters and major events for technology leaders around the globe. More information about Red Herring is available on the Internet at [www.redherring.com](http://www.redherring.com).

### **About OneAccess**

Created in 2001, OneAccess develops and manufactures multiservice access routers and network access equipment. OneAccess built its success by focusing on answering telecommunication operators' requirements. The OneAccess product range is designed to deliver top-quality data and voice services, ensuring high security levels, reliability and facilitated integration. The result is improved productivity and reduced Total Cost of Ownership. Since its creation, OneAccess has grown to become a worldwide provider of network access equipment, working with a large number of incumbent (ILEC), alternative (CLEC) operators and various other Service providers. The OneAccess offer includes the entire broadband access technologies (ADSL/ ADSL2+/SHDSL and SHDSL enhancements), the best in class voice protocols (SIP/H.323/MGCP), all types of voice interfaces, copper and fibre transmission equipment, multiplexing, and a Carrier Class Operating System.
