

OneAccess Routers for Easynet Connect 8Mbps symmetrical service launch

Press Release

OneAccess routers provide Easynet Connect with solutions for high-speed internet services

March 03 2010, London and Paris: OneAccess, the European leader in multi service access routers announced that ISP Easynet Connect's high-speed 8Mb Surestream Service has been launched into the UK market using the One80M router from OneAccess. The launch follows the successful introduction of OneAccess routers to Easynet Connect's ADSL and SDSL customers.

Surestream is an advanced symmetrical broadband service delivering resilient, uncontended, and scalable bandwidth up to 8Mb, at a fraction of the cost of a traditional leased line. Surestream is targeted at SMEs (Small Medium Enterprises) who require high quality and performance from their broadband internet service. Resilience, combined with strong management and diagnostic tools in the OneAccess One80M router, assisted Easynet Connect in delivering on its brand values of quality and performance to the SME market. The high specification of OneAccess routers allows Easynet Connect to provide ADSL or SDSL backup as an option to the Surestream service.

"We selected OneAccess based on their proven reputation for providing high quality solutions for service providers to the enterprise data and voice market," commented Chris Stening, managing director at Easynet Connect, adding; "We look forward to developing our partnership with OneAccess to build a range of exciting new services in the future."

Alan Brazier, chief sales officer of OneAccess, says; "Our growing partnership with Easynet Connect has allowed the two companies to partner in developing new service concepts and bring them to market. The OneAccess innovative business class technology gives us the flexibility to respond quickly to fast moving market requirements. Easynet Connect is yet another example of the business benefits that OneAccess offers agile, market-leading operators."

###

About Easynet Connect

Easynet Connect is a leading provider of quality connectivity and internet access for small to medium size businesses. Established in 1994 and part of BSkyB Group, Easynet Connect is one of the largest networks in the UK with 6030km of fibre and last mile access to more than 70% of UK businesses via a network of more than 1,200 unbundled exchanges.

Easynet Connect was the first provider in the UK to provide DSL services over an unbundled local loop and has pioneered managed LLU services for business. The services range from business class ADSL and SDSL through to high-quality, leased line equivalent and Ethernet based services. Our SDSL coverage is currently the most extensive in the UK. We offer a range of uncontended symmetrical speeds up to 1Gbps, all backed by 24x7 UK-based network monitoring and customer support, 99.9% Service Level Guarantees and an enviable 95% First Time Fix rate.

Our 20-day installation pledge for our EtherStream and SureStream products is the shortest of the few installation pledges currently available on the market. For more information, visit www.easynetconnect.net or call 0800 053 1777.

About OneAccess

Incorporated in 2001, OneAccess is a leading manufacturer of multi-service routers and carrier Ethernet access devices enabling major telecoms service providers to deliver business-grade managed services
